Write a C program convert Decimal to Binary using array.

```
#include<stdio.h>
#include<conio.h>
void main()
{
    int n,i,j,m;
    int bn[10];
    clrscr();
    printf("\n Enter any decimal Number ");
    scanf("%d",&n);
    i=0;
    while (n>0)
    {
        m=n%2;
        n=n/2;
        bn[i]=m;
        i++;
    }
    for(j=i-1;j>=0;j--)
        printf(" %d",bn[j]);
    getch();
}
```
